

Nour Eldean Tamer Hassan Mohamed

Full Stack Developer

Cairo, Egypt | 01208915854 | tamernoureldean@gmail.com | [View My Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven and versatile Full Stack Developer with 3 years of comprehensive experience building robust web applications and dynamic user interfaces. Proven track record of successfully delivering over 15 projects for more than 11 diverse clients. Adept at leveraging modern technologies including React, Node.js, and Python to craft scalable, high-performance solutions. Passionate about bridging the gap between backend logic and frontend design to deliver seamless digital experiences.

TECHNICAL SKILLS

Frontend Development - HTML5, CSS3, JavaScript (ES6+) - React.js, TypeScript - Tailwind CSS	Backend Development - Node.js, Express.js, RESTful APIs - Python - MongoDB (NoSQL Database)
Tools & Deployment - Git, GitHub, VS Code - Docker, Vercel, Netlify, AWS - Notion	UI/UX Design & Others - Figma, Adobe XD - Illustrator, Photoshop - Problem Solving, Team Collaboration

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer / Remote / 3 Years

- Successfully delivered over 15 complete web and mobile applications for more than 11 clients, ensuring high-quality standards and timely execution.
- Designed and developed responsive, user-centric interfaces utilizing React.js, Tailwind CSS, and modern JavaScript frameworks.
- Engineered robust backend architectures and RESTful APIs using Node.js, Express, Python, and MongoDB to handle complex data workflows.
- Collaborated closely with clients to gather requirements, translate business needs into technical solutions, and maintain continuous communication throughout the development lifecycle.
- Utilized industry-standard deployment tools including Docker, Vercel, Netlify, and AWS to ensure application scalability and reliability.
- Applied UI/UX design principles using Figma and Adobe XD to enhance user experience before coding implementation.

Freelance Python Developer / Remote / 3 Years

- Developed custom desktop applications and automation tools tailored to specific client needs using Python.
- Provided backend logic solutions and data processing scripts for various small businesses and individual clients.

EDUCATION

Advanced Technical School for Maintenance Technology

Specialization: Water Networks (Supply & Drainage)

Location: Cairo, Egypt

Status: Currently Enrolled
